

MEETING SUMMARY FOR BORREGO WATER COALITION
Thursday, December 3, 2015

Those present reviewed the following Updates:

San Diego County's role as GSA and BWC's potential participation
USGS Report issued recently
UCI workshop attended by several members
The current status of the Basin boundary adjustment requested by BWD

The following items were discussed:

1. The BWD provided a copy of its cost sharing model for discussion. The Model was purchased by the BWD to determine cost sharing for the planning costs associate with the GSP. The Model was first reviewed during the District's business meeting in October 2015 and provided to the BWC as a courtesy to facilitate discussions.
2. The parties discussed the BWC's role in the GSP process, particularly if San Diego County also applies for GSA status. At issue is the role of stakeholders in the process. The BWC as an organization seeks to be a recognized stakeholder by all parties.
3. The parties discussed the process for metering wells pursuant to the GSP and how to establish and refine a methodology that provided the best and most accurate information.

The parties closed the meeting by reviewing the open action items various members had agreed to complete.
